GRADE 5ROLE PROFILE

ROLE SUMMARY

The role holder will have specific administrative and specialist area knowledge, and will have a good understanding of the systems and processes of the University. All roles will have some control of own work load and priorities for some weeks or months ahead. Role holders are expected to work without close supervision, although managerial guidance is available. In supervisory roles, there will be responsibility for co-ordinating and prioritising the work of others. The role will support the enhancement of the service provided, through the development of new processes and the implementation of process improvements. The role holder will be responsible for:

GRADE 5 ROLE PROFILE

ROLE SUMMARY

The role holder will require specific technical or practical skills and a well developed working knowledge of technical or scientific practices and procedures acquired through specialist education in a technical discipline and substantial experience. The work will involve the application of skills and knowledge to provide specialist technical support to staff, students, more senior colleagues and the wider public working on a range of activities within well established procedures. Roles at this grade may provide technical support for defined research or consultancy projects. Role holders are expected to work without close supervision. The range of tasks will involve planning of timing and sequencing in order to deliver the services specified over many months.
